I hereby request and approve Oconto Electric Cooperative's plans to construct and install electric service facilities on my premises. To the best of my knowledge, the above sketch indicates all known present and proposed underground facilities within the construction limits of the proposed work. I agree that in the event there is accidental damage to any facilities not indicated in the above diagram, I will hold the Cooperative harmless for any damage or liability arising out of, or as a result of such damage, and agree to personally be responsible for the cost to repair such damage.

I am the legal property owner and also agree that the area where poles or underground cable is to be installed will be within 6" of the final grade and will not be disturbed after the facilities are installed. It is further understood and agreed that no permanent facilities such as a porch, garage, sidewalk, swimming pool, patio, or similar structure, will be constructed over any underground cable or restricting access to the meter pedestal. Any costs of relocating the cable as a result of said construction will be paid by the property owner.
